

## Invitation

### **Press Conference on The impact of the Law on Associations and Non-Governmental Organizations**

**WHAT:** Press Conference on the impacts of the Draft Law on Associations and Non-Governmental Organization (LANGO).

The Cambodian government has drafted a Law on Associations and NGOs with the stated aim of safeguarding the rights and freedoms and promoting the movement to create civil society organizations (CSOs). CSOs representatives had chance to consult with the government on the draft law, which was released in 2011. However, they decided to legislate the latest LANGO without further consultation with stakeholders. A rapid assessment has been consolidated to proof the impact of LANGO if this law will be passed in the current format.
