Training Workshop on the Fundamental QGIS

Introduction:

Open Development Cambodia (ODC) is an 'open data' website, the first of its kind in Southeast Asia. The open data movement is based on the simple premise that data collected for public interest should be publicly available without restrictions. Information or data in the public domain should be freely available to everyone to use and republish as they wish. Open Development Cambodia does not promote any particular perspective, agenda or bias other than to provide objective information about Cambodia and its development.

Open Development Cambodia (ODC) is delighted to announce the training workshop **on the Fundamental QGIS** that held on 1st-2nd August 2022. This training workshop aims to provide a comprehensive knowledge on geographic information system and using open-source GIS platform (QGIS) for data collection, data management and mapping. The environmental and natural resource are used as the theme during the workshop.

Workshop:

This two-day workshop is organized with lessons for participants to understand the main principles of using custom map and practical application. Those lessons are:

Chapter 1: Introduction of Geographic Information System

Chapter 2: Starting with QGIS

Chapter 3: QGIS data management system

Chapter 4: Data styling by coloring and symbology

Chapter 5: Organize map layout in QGIS

About workshop:

- Venue: **ODC Office**, **No.23B, Street 606, Phnom Penh**. URL: https://goo.gl/maps/PUb1Sa7hbbdZy6Xv8
- Date:
