JOINT PRESS RELEASE

**Signing Ceremony of Record of Discussions
On
“Project for Development of Clean Energy Transition Road Map towards
Carbon Neutral Society”**

On January 11, 2023, at the Ministry of Mines and Energy (MME), the Record of Discussions for JICA's new Technical Cooperation on “**Project for Development of Clean Energy Transition Road Map towards Carbon Neutral Society**” has been signed by **H.E. Ty Norin**, Secretary of State, MME and **Ms. KAMEI Haruko**, Chief Representative of JICA Cambodia Office.

The purpose of the Project is to develop the Roadmap towards carbon neutral society in Cambodia with the best balance among energy security, economic growth and environmental protection. The Project is planned to start in March 2023.

In close cooperation with MME and relevant stakeholders, JICA expert team will review all relevant policies and scenarios, analyze pros and cons of scenarios, and identify priority technologies and measures to be adopted, which will be followed by development of policy actions, institutional framework and investment projects and strategies. Referring to these analysis and recommendation, the Roadmap will finally present action plans based on the most relevant scenarios to be implementation by the Ministry towards carbon neutral society.

We believe that with joint efforts from both parties, the Roadmap will surely contribute to the achievement of carbon neutral society by 2050 in Cambodia. ✓
