Workshop on "Cambodia Data eXchange (CamDX) Ecosystem"

On Wednesday, October 1, 2025, at Sokha Phnom Penh Residence Hotel, Techo Startup Center which is the Cambodia Data eXchange (CamDX)'s operator, held a workshop on **"Cambodia Data eXchange (CamDX) Ecosystem"** chaired by **His Excellency Dr. Kong Marry**, Secretary of State of Ministry of Economy and Finance and Chairman of the Board of Directors of Techo Startup Center. The workshop was attended by around 150 participants from relevant ministries, private sector and development partners.

The workshop began with a welcoming speech by **His Excellency Dr. Taing Nguonly,** Executive Director of Techo Startup Center, followed by an official opening speech by **His Excellency Dr. Kong Marry,** Secretary of State of Ministry of Economy and Finance and Chairman of the Board of Directors of Techo Startup Center. During the workshop, there were presentations by the representatives of Techo Startup Center on "Cambodia Data eXchange Ecosystem", "Generic Template for E-Services for Business (ESB)", and "Procedures to become Cambodia Data eXchange members to access Digital Services in CamDX Ecosystem".

This was the first workshop organized by Techo Startup Center to raise awareness and encourage greater use of digital products within the CamDX ecosystem. The workshop's objectives were to:

1. Enhance the understanding on the Royal Government of Cambodia's achievements and mechanisms in using CamDX effectively and efficiently;

2. Promote and expand the use of existing digital products within CamDX ecosystem;

3. Disseminate information widely and clearly to allow public and stakeholder participation to obtain maximum advantage from CamDX; and

4. Encourage ministries and public institutions to share and exchange data (open base registries) via CamDX to improve business-related public services delivery.

The workshop highlighted the importance of engaging key actors from both public and private sectors in exchanging and sharing data within CamDX ecosystem, which contributes to economic growth especially API economy and digital society in Cambodia. In addition, the workshop encouraged ministries and public institutions that manage base registries to participate in data sharing through CamDX ecosystem, which not only enhances the delivery of public services but also improves the efficiency of private sector business operations in a digital format, in alignment with the fifth pillar of the Pentagon Strategy, Phase 1 of the Royal Government of Cambodia.
