No. PR 15/2026 MFA.IC

**PRESS RELEASE**

The Ministry of Foreign Affairs and International Cooperation of the Kingdom of Cambodia wishes to inform the public that on **4 February 2026**, **Samdech Moha Borvor Thipadei Hun Manet**, Prime Minister of the Kingdom of Cambodia, sent a letter to His Excellency **Emmanuel Macron**, President of the French Republic, in response to France's indication of its readiness to provide relevant historical and technical documents related to international boundary between Cambodia and Thailand, should Cambodia so request.

In his letter, **Samdech Thipadei** conveyed Cambodia's sincere appreciation to France for its steadfast and principled support for the ceasefire between Cambodia and Thailand, as well as for France's constructive engagement in efforts aimed at facilitating the peaceful resolution of disputes in accordance with international law.

**Samdech Thipadei** also highlighted Cambodia's high regard for France's long-standing contributions to Cambodia's peace, development, and national reconstruction over many decades, noting that these contributions have played an important role in strengthening Cambodia's national capacities and in deepening the close and multifaceted partnership that the two countries share and continue to cherish.

**Samdech Thipadei** further underlined the importance Cambodia attaches to France's role, not only as a permanent member of the United Nations Security Council, but also as a leader and champion of global governance, international law, and multilateralism, and as a long-standing partner bound by mutual respect, shared history, and common values.

In this context, the Prime Minister requested France to consider providing technical expertise and advisory support, and to facilitate access to, or the provision of relevant

historical and technical documents related to the international boundary between Cambodia and Thailand, which is a legacy of the Protectorate era.

Samdech Thipadei reaffirmed that Cambodia stands ready to work closely with France and with the international community to safeguard peace through respect for international law and through the peaceful resolution of disputes, not through the threat or use of force, and expressed his firm belief that France's continued engagement will serve the shared objective of achieving a just and lasting solution, so that the Cambodian and Thai peoples may live side by side in peace, security, good neighbourliness, and prosperity for generations to come.

The Royal Government of Cambodia reiterates its strong commitment to the peaceful settlement of disputes, the renunciation of the threat or use of force, and the promotion of international law and multilateralism as the foundations for regional and global peace and stability.
